Flowering Bulbs

Anderson & Co.,

Seedsman and Plant Merchants,

399 George Street, SYDNEY.

Seed Warehouse,

399 George Street, Sydney,

February, 1903.

The demand for Flowering Bulbs has so much increased that we are devoting much attention to this department of our business, and for the present planting season we are offering . . .

A SUPERB STOCK

of the most approved varieties in the different sections of this charming family of plants. The cultural directions which we have added contain up-to-date information, so that the uninitiated can by such guidance take up the culture of Flowering Bulbs, and add to their garden a new charm.

The early flowering bulbs, such as Daffodils, have been called

"Sweet Messengers of Spring,"

as they bring with them a freshness and beauty peculiarly their own.

All Bulbs are of easy culture, and anyone can grow them.

Our Customers should order early, so as to secure good Bulbs, as we anticipate a very large demand this season.

FLOWERING BULB ORDER—Continued.

MISCELLANEOUS REQUIREMENTS.

FLOWER SEEDS.

VEGETABLE SEEDS.

Our GENERAL CATALOGUE will be forwarded about April.

FLOWERS Grown from BULBS.

Spring Flowering Bulbs have a special charm of their own.

The DAFFODIL comes at a time when flowers are scarce, when the weather is cool and agreeable, hence their flowers keep fresh a long time, and add a brightness and charm to the garden, all their own. The charming sweet-scented HYACINTH follows it closely, and the lordly GLADIOLI, with their splendid spikes of strikingly coloured flowers, come on in quick succession for several months. The magnificent ANEMONES and RANUNCULUS make our garden gay with all the colours of the rainbow, and the stately LILIUMS tell us that Easter is not far off; all the other varieties have charming flowers.

We deliver all Flowering Bulbs Post or Carriage Free at the prices named.

Hints on the Culture of Bulbs.

The Soil.

Any good well-worked soil will grow Bulbs, provided it is well-drained and broken up. Sandy loam suits them well, and even fine sand, if well enriched, will grow them, but strong soils must be thoroughly well broken up, drained if necessary, and lightened by the addition of sand or vegetable matter before they are suitable.

Preparation of the Soil.

When land has been deeply dug for the reception of Bulbs, it should be allowed to remain unplanted for a week or two to allow it to settle, otherwise the Bulbs may get too deep down in the soil.

Avoid Deep Planting.

The size of the Bulb must be taken into consideration when planting, and if they have a covering of soil equal to the extreme depth of the Bulb itself, it will generally be sufficient. A Hyacinth Bulb, measuring 2 inches in diameter, requires a covering of 2 inches only.

Mulching.

A top dressing of old stable manure or decayed vegetable matter placed over the surface of the soil, to a depth of about 2 inches, is invaluable for Gladioli or Liliums, &c., during the summer months, as it keeps the roots cool and retains the moisture in the soil. It is not necessary, however, for spring flowering Bulbs—for these the soil should be kept open with a hoe or cultivator.

Manuring.

Nearly all Flowering Bulbs dislike ammonia, and fresh stable manure or fowl yard manure must never be used. Well rotted stable manure or cow dung, which has been maturing, can be safely used, but it should be well dug in, and not allowed to come in touch with the Bulbs. In the case of Daffodils, the manure is intended to hold the moisture, and not as a fertiliser. A dressing of bone dust may also be given with advantage. It can be mixed with the soil and will not harm the Bulbs.

The best time to plant Bulbs.

All the Bulbs we list can be safely planted during March, April and May, with the following exceptions:—Liliums should be planted during May, June and July; Gladioli from April until October; and Montbretias, Tigridias, and Vallotta Purpurea during June and July.

How and when to plant.

Bulbs may be planted in groups, beds or rows, and the distance apart must be determined by the size of the plants. The soil must never be very wet or sticky when planting is done, and unless it has settled after digging the soil should be firmed with pressure of the foot, so as to give the Bulbs a firm base. If the soil is stiff, a little sand under the Bulb greatly helps drainage and prevents rotting.

Varieties and Prices
are given on page 12
of this List.

These truly magnificent flowering tubers are deserving of a place in every garden, and we cannot too highly recommend them. Their matchless variety of colour, and endless shades of crimson, scarlet, lilac, rose, blue, purple, and white, together with the wonderful markings and blotches of colour, renders them very attractive. They are most beautiful as cut flowers, and will last for a week in water. The foliage is very beautiful, and the plants bloom for a long time, and by successional planting they can be had in bloom for three months. The later plantings should be made in moist soil, and in partial shade. They prefer a fairly strong soil, well drained; the bulbs should be planted about six inches apart and covered with about an inch of soil, which should be made firm about them.

- Dutch Single.** Mixed. All colours; a splendid assortment; very effective 1s. doz.; 5s. 100
- Dutch Double.** Mixed. Including many brilliant shades of colour 1s. doz.; 5s. 100
- Dutch Single Scarlet.** Very showy 1s. doz.
- Dutch Double Scarlet.** Brilliant and very double 1s. doz.
- French Single.** Mixed. Beautiful shades of colour; very large and showy 1s. doz.
- The Bride.** Single variety. Extremely beautiful pure white; flowers very freely 1s. doz.

- Chrysanthemum-Flowered.** Mixed. A very distinct class, with large handsome double flowers; the petals are regularly incurved .. 1s. 6d. doz.
- St. Brigid.** A beautiful strain of the Chrysanthemum-flowered Anemones, with double and semi-double flowers of the most brilliant colours 2s. doz.
- Fulgens (Scarlet Windflower).** Rich dazzling scarlet; light elegant growth 2s. 6d. doz.
- Fulgens fl. pl.** Double variety of the handsome Scarlet Windflower 2s. 6d. doz.
- Double Named and Distinct Varieties** 2s. doz.

Amoryllis.

- A. Vittata (Hippeastrum).** Hybrid varieties. These produce flower stems from eighteen inches to two feet, surmounted by remarkably handsome large heads of trumpet-shaped flowers of crimson striped with white, and white grounds with crimson markings; of easy culture; fine border plants. Fine bulbs in mixture 1s. each; 10s. doz.

DARK RED, and Light Colour.

- A. Formosissima (Sprekelia).** The Jacobean Lily. Showy bulbous plant, with beautiful brilliant crimson flowers; a very handsome border plant .. 1s. each
- A. Belladonna.** This well-known and splendid species is very variable, both in size and colour of the flowers, frequently producing variously shaded flowers, from almost white to reddish or purplish hue; they thrive best in light soil 6d. each

Amoryllis.

Babiana.

Mixed 2s. each; 1s. 6d. doz.

Very showy plants, producing rich self-colours and very distinct hues in the same flower, with long wire-like foliage. To succeed with them they should be planted in a light sandy compost, with a small proportion of well-decayed manure

Brunsvigia.

Multiflora 1s. each

This magnificent border plant forms a handsome crown of flowers on a stem of about three feet, containing from eighteen to twenty-four separate large blooms; the colours are pink and white, with a delightful perfume; will flower first season.

Crocus.

- Blue** 2s. 6d. doz.
- Yellow** 2s. doz.
- White** 2s. doz.
- Striped** 2s. 6d. doz.
- Mixed Colours** 2s. doz.

A well-known old English favourite. Only suitable to the colder districts. If the situation and climate are suitable no special care is necessary; will thrive in the poorest soils.

Freesia.

Charming tuberous plants; flowers have a delicious perfume, and are of great value for cutting; each bulb bears more than one stem with eight or ten flowers. Most desirable pot plants, but they are perfectly hardy out of doors; should be planted four inches apart, and lightly covered; they are not particular as to soil or situation; grow to a height of from 5 to 8 inches.

Refracta Alba 6d. doz.; 3s. 100
White; sweet-scented.

Leichtlini .. 1s. doz; 5s. 100
White, passing to primrose; yellow throat; pretty.

Single Anemone.

IN THE OPEN GARDEN. These magnificent bulbs produce most charming garden plants, and are very easily grown. They prefer a good sandy loam, enriched with old stable manure; peaty soils also suit them if well drained; they will not succeed in dry soils. They should be planted in rows or in clumps 6 to 12 inches apart, and the crown of the bulb must be covered with at least an inch of soil. If the shoot when it comes through the ground shows an inclination to open and reveal the flower buds which it encloses, cover it up at once with an inverted flower pot, the object being to draw the flower stem from the bulb while it is enclosed in the leaves, and before the flower is exposed to the sun. If this is not done it sometimes happens that the flower begins to colour when only a portion of it has appeared, and the beauty of the spike is thus lost. Allow the flower pot to remain until the flower stem is well through and above ground, then remove it, and fine spikes will be secured. The bulbs must be lifted when they have done flowering and their foliage has died down; they should then be stored in a dry place until next planting season.

HYACINTHS IN POTS. They make beautiful pot flowers. Plant in 6-inch pots, good drainage, rich sandy, loamy or peaty soil; give plenty of water during flowering season.

To GROW HYACINTHS in WATER. (Glasses for this purpose see Sundries inside back cover.) Place the Hyacinth in the glass sufficiently filled with water to allow the base of the bulb barely to touch it, place the bulbs in a dark cupboard for about three weeks, until the roots are well started and have nearly reached the bottom of the glass; then remove them to a well-lighted position in the room near the window, and as close to the glass as possible. Renew the water once a week, and keep it filled up to the base of bulb.

Single Hyacinths.

8d. each; 7s. per dozen.

RED, and Shades of Red.

Betsy. Red.
Cleopatra. Large spike, bells salmon blush, good.
Comet. Pale red, strong grower, fine spike.
Eldorado. Deep crimson.
Eliza. Dark red, good form, large spike.
Grand Blanche Imperial. Rich deep blush; large
Herstelde Vrede. Fine red.
L'ami du Cœur. Beautiful bright rosy red.
Maria Cornelia. Light rose, early.
Monsieur de Faesch. Pink, fine.
Prosper Alpine. Dark red.
Robert Steiger. Bright crimson, large truss.

WHITE, and Shades of White.

Baroness von Tuyll. Large handsome truss, fine.
Emilius. Blush white.
Grand Vainqueur. Pure white, good truss.
L'Innocence. Pure white.
Madame de Stael. Pure white.
Triumph Blandina. Blush, good truss.

BLUE, and Shades of Blue.

Cœur Blanc. Dark purplish blue, large white eye.
Mimosa. Dark purple, very distinct, almost black.
William d'Erite. Purplish black, long spike, fine.

YELLOW, and Shades of Yellow.

Ida. Bright deep yellow, fine spike.
Fleur d'Or. Fine, pale.

Double Hyacinths.

8d. each; 7s. per dozen.

RED, and Shades of Red.

Bouquet Royal. Rosy salmon, red centre.
Grootvorst. Delicate blush, handsome bells.
Herman. Large, blush.
Jenny Lind. Pink.
Noble par Merite. Rose, striped carmine, large bells
Rouge Eclatant. Red.

WHITE, and Shades of White.

Bouquet Royal. Pure white.
Gloria Florum. Pure white, yellow centre.
Ne Plus Ultra. Pure white, violet centre.
Prince of Waterloo. Pure white, large bells.

BLUE, and Shades of Blue.

Bouquet Pourpre. Dark blue, very fine.
Directeur von Flore. Blue.
König von Wurtemberg. Deep strong blue; good.
La Belle Blanchiseuse. Blue.
Lord Noel. Blue.
Prince Albert. Black purple.

YELLOW, and Shades of Yellow.

Sovereign. Fine, good spike.

Roman Hyacinths.

Early White.

8d. each; 2s. 6d. per dozen.

This very beautiful and extremely early Hyacinth deserves to be largely grown; its pure white and deliciously scented flowers render it most attractive. It makes a very pretty show when grown in pots—4 or 5 in a 6-inch pot.

Bedding Hyacinths.

On page 11 will be found a list of Cheap Hardy Bulbs, which we offer in quantity; they are suitable either for massing in beds or borders.

Hyacinthus Candicans.

6d. each.

Distinct species of Hyacinth, producing a long spike, 4 feet high, covered with white bell-shaped flowers.

For
Hyacinth Glasses
&c.,

Hyacinths—Various.

Gladiolus
Nanceianus.

Culture of Gladioli.

THE culture of the Gladioli is exceedingly simple, as they will grow in any average soil; but to grow them to perfection the soil should be of a sandy or loamy nature, and should be well worked or trenched to a depth of 18 inches. No new or green manure should be used in preparing the soil, but old well-rotted stable manure, dug well in so that it does not touch any of the Bulbs, will greatly assist in keeping the ground in a moist open condition, and will promote a strong, hardy growth. A dressing of bone manure can, however, be incorporated with the soil with perfect safety. If planted in rows the bulbs should be 8 to 10 inches apart, and the rows two feet, and covered to a depth of 2 to 3 inches. When the shoots are about 12 inches high they should be tied up to keep them straight. The soil between the bulbs should be well stirred and kept clean. It will not be necessary to water them unless the season is a very dry one, if the ground has been well worked as we recommend, but if watering is resorted to let it be done thoroughly if less frequently. A top dressing of manure over the surface of the soil is an excellent practice in summer. After the plants have finished blooming and show signs of ripening, by their yellow and brown leaves, the bulbs should be lifted and the shoots cut off close to the bulbs; and when the bulbs are properly dried the old sole or bulb should be removed and the new bulbs stored in a dry place until ready for replanting.

HYBRID GLADIOLI

All varieties, 1s. each; 10s. per doz., post or carriage free.
FOR COLLECTIONS OF GLADIOLI SEE OPPOSITE PAGE.

Our Magnificent Gladioli.

The beautiful exhibition of cut blooms of our superb collection which appeared in our window for three weeks last season, created quite a sensation in the horticultural world, as such a display had never been seen in the State. Our collection was gleaned from the most noted growers in Europe, and embraced the finest varieties in cultivation.

We are this year adding many quite new and charming sorts, which will doubtless attract great attention when exhibited at our forthcoming exhibition.

The following list embraces only such varieties as we can supply now, but a very much larger assortment will be available for planting in September, and our Customers can safely leave the selection in our hands. The Gladiolus is a charming flowering plant, which can be had in bloom for six months in the year, if frequent plantings are made, as the Bulbs can be kept in a dry state for a long period, and can safely be kept out of the ground if necessary, until they have a shoot of an inch in length. As cut flowers they are unrivalled, and last a long time in water, and if cut when only the first flowers are expanded, the remaining flowers will all open in water. The first planting should be made in May, followed by others right on until September.

Gladioli Colvillei—"The Bride."

This is a beautiful miniature, pure white, Gladioli, and one of the most charming for providing cut blooms for table decoration. Its spikes and flowers are much smaller than the ordinary varieties of Gandevensis, which makes them adaptable for drawing-room decoration, as their charming spikes are light and graceful. We particularly recommend this lovely variety. 3s. per dozen.

(See Illustration opposite page.)

Gandavensis Gladioli.

Africain. Slaty brown, scarlet ground, streaked scarlet and pure white, conspicuous white blotch.

Andre Leroy. Very fine deep cherry red, flamed and striped with a rich darker shade; white blotch and white stripe in the centre of each petal.

Arch. M. Christine. White, tinged lilac, flamed carmine.

Aurore de feu. Rosy scarlet, golden yellow centre.

Baroness Burdett Coutts. Delicate lilac, tinged rose; long spike of large flowers.

Beatrix. Pure white, flushed carmine.

Bicolore. Rosy salmon, lower petals white.

Canova. White, mottled rosy lake.

Cervantes. Bright rose colour, tinged lilac, fine.

Crepuscule. Flowers violet rose, flushed carmine, violet edged petals.

Christopher Columbus. Rosy carmine, flamed red, large violet red blotch on lower petals.

Diademe. Very fine, pale yellow, slightly edged rosy lilac.

Diamant. Fleshly white, throat ivory white, blotched and streaked carmine.

Eldorado. Clear yellow, lower petals streaked red.

Enchantresse. Satiny pale violet white, streaked violet.

Fantome. Large pure white flowers, slightly streaked at edges with rosy lilac.

Fille des champs. Pretty cherry rose, striped edges.

Fra Diavolo. Large spike, bright orange rose, flushed violet, red at edge of petals, large pale yellow blotch.

Gargantua. Large flowers, rosy carmine, striped violet red, very bright in centre.

Gerbe de Feu. Dazzling scarlet, creamy white blotch.

Grandesse. Large flower; petals fleshy white, suffused lilac carmine blotch.

La France. Pure white, slightly flamed carmine towards edges, amaranth blotch.

La Perle. Splendid spike with large flowers, pure lilac, clothed violet carmine, on lower petals.

L'Ardoisiere. Bright scarlet, suffused and distinctly edged with slaty grey.

Lily. Large flowers, mottled with creamy white and bright soft rose, very delicate.

Mahomet. Dark violet carmine, white blotch and bands.

Marguerite Cadeau. Almost pure white, lilac rose eye.

Michigan. Bright cherry red colour, white blotch.

Bacchauti. Handsome salmon rose, streaked scarlet.

Dorothée. Large flowers, fine lilac, flamed carmine, narrow red blotch.

Mascavade. Dwarf pale fleshy rose, streaked red cherry.

Benvenuto. Bright light orange red, white blotch.

Eucharis. Soft rosy white, pale blotch, beautiful.

Miss Helyett. Flowers rosy salmon, small carmine blotch, very brilliant.

Mme. Auber. Pale rosy lilac blotch, dappled light rose on some of the flowers.

Mont Shasta. Ivory white, tinged pale yellow on inner petals.

Mr. Beljame. Cherry red flowers, blotched and striped violet

Mr. Jansen. Large rosy carmine flowers, edged and streaked violet red, cream blotch.

Mrs. P. Palmer. Rose, suffused carmine, cream blotch, edge cherry red; very large flowers.

Gandavensis Gladioli (Contd).

- Neride.** Large flowers, pearl rose colour.
Norma. Pure white, sometimes suffused with lilac.
Ophir. Dark yellow, purple blotch.
Pactole. Beautiful yellow, slightly tinged with rose at the edges; blotch of a darker shade.
Pepita. Golden yellow, edges of the petals slightly striped carmine towards the end of flowering season.
Phœbus. Brilliant red, with large pure white and very conspicuous blotch.
Princess Mary of Cambridge. White, with very large light carmine blotch.
Prof. Maxime Cornu. Flowers blood red colour streaked with deep vermillion.
Prof. Sargent. Intense orange rose, suffused scarlet, faint amaranth blotch on bluish ground.
Rayon d'Or. Creamy yellow blotch, rich purple, shaded.
Reine Victoria. Pure white, carmine violet blotch.
Romulus. Dark crimson, white blotch.
Rossini. Dark amaranth, streaked and blotched white.
Sceptre d'Or. Yellow, with large black blotches.
Semiramis. Carmine rose on white ground, flamed carmine.
Suffren. Bright cherry rose, carmine blotch.
Teresita. Upper petals of pure white, suffused with rose and striped carmine, lower petals pale rose, blotched and striped bright violet; stamens white.
Therese de Vilmorin. Flowers a creamy white, passing into pure white, few purplish rose stripes in centre.
Tournefort. Fine spike, flowers carmine red, streaked violet.
Tamarlan. Upper petals garnet red, suffused slate; under petals dark carmine.
Toison d'Or. Expanded yellow flowers, small carmine blotch.

Ranceianus Gladioli.

- Gen. de Boisdeffre.** Large flowers, slaty rose, blood red blotch, pencilled and edged straw.
Gustave Grunenwald. Flower splendid deep rich crimson.
Julien Gerardin. Large flowers, pale rose, marbled deep rose, red blotch, creamy edges.
Peau Rouge. Salmon coppered rose with brown yellowish markings.
J. J. Weiss. Large flowers, brilliant maroon red, large velvety purple blotches with yellow eye.

Lemoinei Gladioli.

- Mad. Desboides Volmaire.** Large salmomy white flowers, large scarlet blotches and edged straw.
Precurseur. Fine bright rosy lilac, with carmine red blotch on a white ground; extremely early.
Rosa Bonheur. White, tinged lilac, dark carmine blotch.
Senateur Yolland. Large flowers, pure blue, dark blotch with a yellow stain; striped blue.
Comte de Kerchove. Large, rose colour, bright purplish blotches, white stain.
Mons. Jarry-Desloges. Perfect shape, splendid fiery scarlet, small purplish blotches.
Madrilene. Bright salmon rose, carmine blotch on white ground.
Mons. Leveque. Splendid velvety crimson, lined golden yellow.
Dr. Charcot. Clear violet, cherry red blotch on a white ground.

"The £1 Collection of Bulbs you sent me, I am well satisfied with; one-half of them are up already."

COLLECTIONS OF BULBS

We have increased the number
of Collections, and we
offer a fine list on
Page 12.

Nothing can exceed the beauty of this charming family of plants, remarkable alike for their curiously constructed and quaintly marked flowers, and for the peculiar manner in which the colours are blended; they are easily cultivated. Plant from March to May.

Spanish Iris (ORCHID IRIS).

We have grown these extensively during the past season, and can most strongly recommend them as decorative plants. The flowers are produced on slender stems about a foot high, bearing two to three flowers each. These are most fantastically shaped and of beautiful colours, yellow, bronze, and blue, with beautiful shades and markings. A single bulb will sometimes throw three or four spikes, and these when cut will last a long time in water, as the buds continue to open. As a dinner table decoration they cannot be excelled. They will thrive in the open or partially shaded places, and should be planted in clumps. Any average soil will grow them, provided it is well drained. In stiff soil, put some sand around the bulbs when planting.

(S) signifies the Standards, or erect petals.
(F) the Falls, or drooping petals.

Avalanche. (S) China white. (F) White, golden blotch.
Blue Beauty. (S) Violet. (F) Azure blue, with yellow eye.
Cantab. (S) Dark azure. (F) Cambridge blue, orange blotch.
Carmen. (S) Rosy purple. (F) Yellow, with orange blotch.
Catherina. (S) Blue shading to white. (F) White and orange.
Donna Maria. (S) Pale lavender, shaded white. (F) White, with golden blotch.
Louisa. (S) French grey. (F) White, with golden blotch.
Princess Ida. (S) White. (F) Delicate primrose, orange blotch.
Snowball. (S) Pure white. (F) White, golden blotch.
Sunset. (S) Lavender. (F) Yellow, with orange blotch.
The Moor. (S) Chestnut purple. (F) Golden, brown, and orange.
Thunderbolt. (S) Rich bronzy purple. (F) Chestnut brown, orange blotch.

Any of the above varieties, 4d. each.

The 12 beautiful varieties, distinct and carefully named, 3s. 6d.

Splendid Mixed, all shades 3s. per doz.

In the event of our stock of any varieties ordered being exhausted, we will take the liberty of substituting others of equal merit.

Iris Kaempferi (JAPANESE FLAG IRIS).

1s. each; 9s. per doz.

For size and richness of colour the following varieties of the Japanese Iris are unequalled, with an indescribable mass of colouring, flowers often measuring 6 to 8 inches across. They grow to a height of 2 feet, and like a moist situation, with light rich soil.

Blue Danube. Deep luminous peacock blue, yellow centre.

Gem. Pure white, each petal streaked with gold.

Hana-aol. Blue purple shade; six perianths.

Japonaise. White, lightly shaded blue, gold laced.

Kuma-funjin. Violet; very double.

Kumo-no-uye. Large double; violet; six perianths.

Meiran. White, maroon variegated; three perianths.

Oniga-shima. Violet; six perianths.

O-torige. Light purple; three large perianths

Oshokun. Violet; six perianths; large.

Oyodo. Violet; three perianths.

Pyramid. Tall and showy; light violet blue, white veins, gold band, white centre.

Seraph. Violet, gold band; very large.

Shippo. Blue; six perianths; large.

Shirataki. White; six large perianths.

St. Ogg. Purplish blue, shaded indigo, gold band; large.

Trojan. Purplish blue, gold centre.

Uchiu. Light blue; six perianths; large.

Uji-no-hotaru. Blue; eight perianths; large.

Yedo-jiman. Dark blue; six large perianths.

German Iris.

6s. doz.

An exceedingly large, handsome variety. They succeed best in moist situations, as it is very necessary that they have a free supply of water during the blooming season.

Iris Pavonia (PEACOCK IRIS).

3d. each; 2s. 6d. doz.

A beautiful variety, supporting on slender stems lilac coloured flowers with an intense blue spot on each petal.

Montbretias.

3s. doz.

Crocsmæflora. Distinct varieties. Extremely hardy free growing plants, which flower profusely when thoroughly established: The flower stems are from 2½ to 3 feet in height and gracefully arched, and the colours are charming—bright orange, golden yellow, orange and bright vermilion, striped vermilion, and rose. They grow well in any soil.

Ixia.

2s. per doz.

A charming family of hardy flowering plants; flowers are scarlet, lavender, white, or green, on light graceful stems, produced in great profusion. Any light soil will grow them; they should be planted in clumps, or in rows four inches apart.

Veridiflora. Green flowered Ixia, one of the few flowers of this colour; a charming variety.

Scarlet. Most brilliant colour; charming flower.

Yellow. Beautiful shade of yellow, dark throat.

Mixed. Containing all colours.

Jonquil.

Much admired for their beauty and delicious fragrance; they bloom very early, and last a long time; flowers much smaller than the Daffodils.

Single. Yellow 1s. 6d. per doz.

Double. Yellow 2s. 6d. per doz.

Campanelli 2s. per doz.

Queen Anne's Double. Yellow; handsome, rich, full yellow flowers, resembling a small perfectly double Rose; sweet scented. 1s. ea.

Lachenalia.

Quadricolour 6d. each

Very free flowering; flowers yellow, margined with green, red, and orange; spotted leaves

Nerine.

Sarniensis (Guernsey Lily), 1s. ea.

Belongs to the Amaryllis tribe; thrives well in the open ground; flowers a pale salmon colour.

Japonica (The Beautiful Japanese Spider Plant

6d. each; 4s. per doz.

In September, after the leaves have withered, it sends up flower stalks nine to twelve inches high, which are crowned with umbels of bright red flowers with long curved stamens; charming.

Montbretia.

| Lancifolium Roseum . White, spotted rose | 9d. each |
| Lancifolium Rubrum . White, spotted red | 9d. each |

The *Lancifolium* varieties have magnificent flowers beautifully recurved, and, with exception of *Album*, are spotted.

- | | |
|--|--------------|
| Auratum (Golden Rayed Lily of Japan). The flowers are from eight to ten inches across; ivory white, thickly studded with crimson spots, and a bright golden band through the centre of each petal | 1s. 6d. each |
| Tigrinum (Tiger Lily). Orange, spotted black | 6d. each |
| Tigrinum Flore Pleno (Double Tiger Lily) | 9d. each |
| Thunbergianum (A Japanese Lily). Dwarf in habit; extremely showy, handsome flowers | 6d. each |

LILIES.—The beauty of form, the chaste delicacy of the white blooming varieties *Harrisi*, *Candidum*, and *Longiflorum*, and the magnificent colours of *Auratum*, and *Spectosum*, render these of the greatest importance as Summer blooming plants. They will grow in any good garden soil, provided it is well broken up and drained, but they delight in light, fibrous, peaty soil when it is obtainable; sand should be added to strong, stiff soil. They do not object to partial shade. By planting the proper varieties, a display can be obtained all through the summer.

Lilium
Harrisi.

Lilium
Auratum.

ALTHOUGH in Australia there is no such long winter rest for bulbous plants as in England and the Continent nevertheless these charming plants, which mark the advent of Spring in the old country, have their short rest here, but as soon as the approach of Spring is heralded by the sunshine and warm days, the Daffodil wakes into new life, and soon puts forth its bright flowers in all their loveliness to deck our gardens and our homes, and mark the Springtime with their bright beauty just as effectively in Australia as they do in England.

THERE is no more easily cultivated flowering bulb, for although it, the Daffodil, prefers a strong loam it will grow and flower freely in any average garden soil. The land should be well worked and deeply dug, and if trenched so much the better, but if the land is very poor, well-rotted horse manure should be dug in, to a depth of 8 to 12 inches so that it does not touch the bulbs. Bone manure can be incorporated with the soil to

advantage. We offer strong bulbs which will flower the first season. These should be planted 6 inches apart, and the crown of the bulb should not be covered more than 2 inches. The flowers keep a long time when cut, and retain their brilliant colours in water for several days.

INCOMPARABILIS (Continued).

- Cynosure.** Large primrose perianth, and changing to white; stained orange scarlet cup .. 3d. each; 2s. 6d. doz.
Frank Miles. Soft self-yellow; very charming form 1s. 6d. each
Glow. Red cup; earliest; beautiful .. 6d. each; 5s. doz.
Gwyther. Large broad yellow perianth; crown suffused orange .. 6d. each; 5s. doz.
Goliath. Large white perianth, barred yellow, large yellow cup .. 1s. each.
Lorenzo. Perianth primrose, passing to white; cup yellow .. 6d. each; 5s. doz.
Nelsoni Major. Large white perianth; yellow cup, frequently suffused with orange scarlet .. 6d. each; 5s. doz.
Princess Mary. Broad white perianth; cup much expanded; smooth and suffused orange 1s. each; 9s. doz.
Prince Teck. Creamy white perianth; large expanded cup .. 1s. each.
Queen Bess. Pure white perianth; large, much expanded; pale yellow cup .. 1s. each
Queen Sophia. Perianth sulphur; cup very large spreading and frilled, stained orange scarlet distinct .. 3s. 6d. each
Sir Watkin (Giant Welsh Chalice Flower). Rich sulphur yellow perianth; cup, yellow tinged with orange; beautiful .. 6d. each; 5s. doz.
Stella. Large white perianth; yellow cup 3d. each; 2s. 6d. doz.
Splendens. Sulphur perianth; large cup, edged orange scarlet .. 1s. each; 9s. doz.

SELF-YELLOW TRUMPET DAFFODILS.

- Ard Righ (Irish King).** Large trumpet; yellow perianth 3d. each; 2s. 6d. doz.
Countess of Annesley. Sulphur yellow perianth; rich, full, yellow trumpet .. 4d. each; 3s. doz.
Emperor. Deep primrose perianth; imbricated sepals; large, rich, yellow trumpet; beautiful 6d. each; 5s. doz.
Golden Spur. Deep yellow; trumpet large and lobed; early 6d. each; 5s. doz.
Her Majesty. A fine, bold, self-yellow flower 1s. each.
Major. Rich yellow; twisted perianths; hardy, late 3d. each; 2s. 6d. doz.
M. J. Berkley. Rich full yellow; trumpet much expanded and reflexed at edge 1s. 6d. each.
Maximus. Rich golden yellow; twisted perianth; large, late 6d. each; 5s. doz.
Maximus, Early. Finest yellow trumpet 1s. each.
Obvallaris (Tenby Daffodil). Rich yellow throughout; perfect form; most beautiful 3d. each; 2s. 6d. doz.
P. R. Barr. Primrose perianth; rich full yellow trumpet; free bloomer 6d. each; 5s. doz.
Santa Maria. Remarkably handsome and distinct; perianth gracefully twisted .. 1s. each.
Sunshine. Deep yellow trumpet, large and full; perianth slightly twisted; a fine flower 9d. each; 8s. doz.
Bulbicodium (Hoop Petticoat Narcissus). Colour like the Buttercup; small flowers; large corolla, with small outer petals. 3d. each; 2s. 6d. doz.
Golden Plover. Trumpet and perianth rich golden yellow. 6d. each; 5s. doz.

WHITE WINGED OR BICOLOUR TRUMPET DAFFODILS.

- Grandis.** Large and finely imbricated; pure white perianth, large full yellow trumpet 6d. each; 5s. doz.
Empress. White perianth, great substance; rich yellow trumpet. 6d. each; 5s. doz.
Horsfieldii. White perianth; rich yellow trumpet; large. 6d. each; 5s. doz.
Princeps. Pale lemon perianth, often lighter than the trumpet. 2d. each; 1s. 6d. doz.
Portia. Perianth soft primrose, trumpet yellow; very early. 1s. each.
Dean Herbert. Perianth primrose changing to sulphur; large rich yellow trumpet .. 1s. each.

WHITE & SULPHUR COLOURED TRUMPET DAFFODILS.

- Albicans.** White perianth, trumpet primrose passing to white; elegantly recurved 6d. each; 5s. doz.
Cernuus. Perianth and trumpet silvery white .. 1s. each; 9s. doz.
Helen Falconer. White trumpet, free flowering .. 2s. each.
Moschatus (White Spanish Daffodil). Charming dwarf variety. 1s. each; 10s. doz.
William Goldring. Long snow white tapering perianth, gracefully drooping over primrose trumpet .. 1s. 6d. each.

INCOMPARABILIS OR CHALICE CUPPED DAFFODILS.

- Autocrat.** Very handsome flower; full self-yellow .. 9d. each; 8s. doz.
Beauty. Red cup 6d. each; 5s. doz.
Commander. Pale sulphur perianth, large yellow cup, stained orange scarlet .. 3s. 6d. each.

Double Daffodil—*Telamonius Plenus.*

Narcissi or Daffodils (Continued)

BARRI.

- Conspicuous.** Broad spreading perianth; broad short cup conspicuously edged orange scarlet, the most beautiful of this type. . . 6d. each; 5s. doz.
Crown Prince. Perianth white; cup large and stained scarlet; sturdy grower . . 3s. 6d. each.
Flora Wilson. Pure white perianth; cup stained orange scarlet; very striking flower . . 1s. each; 9s. doz.
Golden Mary. Showy bright golden yellow, late flowering . . 6d. each; 5s. doz.
Miriam Barton. Soft delicate primrose; distinct . . 6d. each; 5s. doz.
Sensation. Pure white perianth; cup edged bright orange scarlet . . 3s. 6d. each.

BURBIDGEI.

- Burbidgei.** Clear white cup, margined bright cinnabar red, a beautiful early flowering form of Poeticus . . 3d. each; 2s. 6d. doz.
Ellen Barr. Broad white perianth; cup, citron stained orange scarlet . . 6d. each; 5s. doz.
Falstaff. Perianth snow white; cup lemon, margined orange . . 3d. each; 2s. 6d. doz.
John Bain. Large white perianth; citron cup . . 3d. each; 2s. 6d. doz.
Baroness Heath. Perianth yellow; cup suffused orange scarlet . . 1s. each; 9s. doz.

LEEDSII.

- Amabilis.** Silvery white perianth; long silvery white crown . . 6d. each; 5s. doz.
Duchess of Brabant. Perianth white; cup canary . . 3d. each; 2s. 6d. doz.
Duchess of Westminster. Large white perianth; long soft canary cup . . 1s. each.
Grand Duchess. Perianth white; spreading white cup, stained apricot . . 9d. each; 8s. doz.
Katherine Spurrell. Broad white perianth, cup soft canary; a very beautiful flower . . 1s. 6d. each.
Madge Matthews. Large white perianth; elegant white cup; distinct . . 1s. each.
M. Magdaline de Graaff. Broad white perianth; cup suffused orange . . 1s. each.
Minnie Hume. Large white perianth; large spreading cup, passing from lemon to white; a chaste flower . . 6d. each; 5s. doz.
Mrs. Langtry. Broad white perianth; large white cup, edged bright canary yellow . . 1s. each.

POETICUS.

- Alba Plena Odorata.** Double white; Gardenia flowered; useful for cutting . . 3d. each; 2s. 6d. doz.
Ornatus (Pheasant's Eye). Single; pure white imbricated perianth; flat cup; edged scarlet; beautiful . . 3d. each; 2s. 6d. doz.

DOUBLE DAFFODILS.

- Double Yellow (Aurantius Plenus).** Double yellow, with orange centre . . 3d. each; 2s. 6d. doz.
Orange Phoenix (Albus Plenus Aurantius). White, with orange nectary; beautiful . . 3d. each; 2s. 6d. doz.
Sulphur Phoenix (Albus Plenus Sulphureus). White, with sulphur nectary; exquisite . . 6d. each; 5s. doz.
Telamonius Plenus. Great double yellow Daffodil . . 3d. each; 2s. doz.

POLYANTHUS OR BUNCH-FLOWERED

NARCISSI.

- Bathurst.** Pale lemon; good; large flower . . 2d. each; 1s. 6d. doz.
Double Roman. White, orange nectary . . 2d. each; 1s. 6d. doz.
Dubius Grandiflorus. Cambric white; very large . . 2d. each; 1s. 6d. doz.
Duchess of Albany. White perianth, orange cup; very large . . 6d. each; 5s. doz.
Gloriosa Superba. White perianth, orange cup; early . . 4d. each; 3s. 6d. doz.
Grand Monarque. White perianth, yellow cup; immense truss . . 2d. each; 1s. 6d. doz.
Grand Primo. White perianth, yellow cup . . 2d. each; 1s. 6d. doz.
Grand Soliel d'Or. Deep rich yellow, with orange cup; very early . . 2d. each; 1s. 6d. doz.
Paper White. Charming pure white; exquisite perfume; very early . . 2d. each; 1s. doz.

Princeps.

"Sir Watkin."

Ornithogalum Arabicum.

Star of Bethlehem. A strong growing showy plant, with large bunches of flowers produced on a tall stem; colour, white with dark centre; very hardy 3d. each; 2s. doz.

Polygonatum (SOLOMON'S SEAL).

A graceful plant, having arching stems of pendant white flowers, partly hidden beneath its foliage 6d. each

Pancratium.

Beautiful pure white flowers, exceedingly fragrant. Liberal supplies of water should be given during the growing season 1s. each

Ranunculus.

We very strongly recommend the beautiful Ranunculus as one of the most charming of our spring flowering plants; the flowers are very double, and sometimes four inches across, a bed of them in full bloom is a glowing mass of colour. They prefer rich loamy soil, but will grow in any average land, if well enriched; they should be planted at least six inches apart, and the ground made firm about them.

The bulbs are planted claws downwards.

Turban Scarlet	1s. per doz; 5s. per 100
Turban Yellow	1s. per doz; 5s. per 100
Turban Grandiflora. Fine crimson and yellow	1s. per doz; 5s. per 100
Turban White	1s. 6d. per doz.
Turban Black	1s. per doz; 5s. per 100
Turban d'or. Scarlet and gold	1s. per doz; 5s. per 100
Turban Mixed	1s. per doz; 5s. per 100
Prince de Galitzin. Superb spotted; very distinct	1s. per doz; 5s. per 100
Double French. Splendid colours	2s. per doz.
Persian Mixed. Very fine	1s. 6d. per doz; 7s. 6d. per 100
Persian Finest Named Varieties. In distinct colours	2s. per doz.
Finest Scotch. Spotted varieties, mixed	1s. per doz; 5s. per 100

Scilla.

Wood Hyacinth. A beautiful little spring blooming bulb; will succeed in almost any situation, being perfectly hardy; flowers are of various colours, and are produced on a short stem; some of the varieties are very dwarf and exquisitely beautiful 3d. each; 2s. doz.

Snowflake (LEUCOJUM AESTIVUM).

Snowflake. A beautiful hardy bulb of the Snowdrop type, which it strongly resembles; the petals are prettily tipped with green; it does well in almost any soil or situation; height when in flower about 12 inches 6d. doz; 3s. 6d. 100

Giant Snowflake. A vast improvement on the ordinary variety, each bell being double the size of the old Snowflake; height when in flower about 12 inches 4d. each; 3s. doz.

Sprekelia Formosissima. (JACOBAN LILY). SEE ANARILLIS.

Tigridia.

Pavonia. The Tiger Flower, so called from the peculiar markings of its beautiful single crimson flowers, which are spotted with yellow; it is very hardy; height, 10 to 12 inches 4s. doz.

Canariensis. Yellow, scarlet spots 6d. each

Conchiflora. Yellow and red spotted 6d. each

Grandiflora Alba. (White Tiger Flower); white spotted crimson; large 9d. each

Tuberoze.

One of the most beautiful summer flowering bulbs in cultivation; the blooms are of the purest white and of the most exquisite fragrance; they are admirably adapted for bouquet making, and are easy to cultivate; flower stems, 3 to 4 feet. Any good garden soil will grow them.

Single 6d. small clumps; 1s. large clumps

Double 6d. small clumps; 1s. large clumps

Double Dwarf, "The Pearl," 6d. small clumps; 1s. large clumps

Tuberoze.

FOR Collections of Bulbs

See page 12.

This genus of old favourite flowers can be grown in parts of our State with great success, and flowered the first season after planting. They prefer a rich sandy loam, but any ordinary land can be enriched by the addition of plenty of old stable manure to grow them successfully; if the soil is inclined to be stiff the addition of sand would be serviceable. The cooler

districts of our State will grow them admirably, but they will do fairly well in other parts if a cool or shady position is selected and plenty of water given, should the weather be dry during the growing season.

Single. Very fine mixed 2s. 6d. per doz
Double. Very fine mixed 3s. per doz

Sparaxis.

Mixed. Embracing every shade and beautifully marked; for their refined colour and graceful habit Sparaxis never fail to win the admiration of those who possess a cultured taste; they are of easy culture; dwarf, 6 inches.. 2d. each; 1s. 6d. per doz.

Pulcherrima (Dierama). Very beautiful species, known as "Fairy Bells;" produces stems 3 to 4 feet long, with pendulous, bell-shaped flowers 6d. each.

Watsonias, Rosea and O'Brienti Alba.

Tulips of Sorts.

Critonia.

Longifolia. A very useful decorative flower, allied to the Ixias, of a rich salmon colour; distinct 2s. doz.

Mixed. From named sorts. Exceedingly free flowering and bright; quite hardy and easily cultivated 2d. each; 1s. 6d. doz.

Vallotta Purpurea.

(The Scarborough Lily.) A lovely free-flowering bulb of the Amaryllis family, suitable either for pots or borders; the flower is trumpet-shaped, produced in clusters, and of a rich orange scarlet; spikes, 18 inches 1s. 6d. each

Watsonia.

Rosea. Rosy red 6d. each; 5s. per doz.

O'Brienti Alba. White 6d. each; 5s. per doz.

Dry Bulbs can be supplied up to end of June, and during July and August, in pots.

O'Brienti Alba is a magnificent plant; when in flower it is from 5 feet in height, and throws up enormous spikes, and produces side shoots which flower in succession for a month or six weeks; its bulbs increase very rapidly, and they should be lifted and divided every season. Suitable for cutting.
